Standards must be completed or waived during any subterranean termite treatment to which they apply (see 27-1085 D). Standards 1-3 must be completed or waived regardless of treatment method. Standards may not be waived for pre-construction treatments without the written permission of the Department of Pesticide Regulation (copy must be attached). The Standards checked below **will not be completed** during this treatment:

- 1. Cellulose debris removed from crawl space or form boards within 8 inches of crawl space soil removed. Other debris which interferes with treatment removed. G (2)(a)
- 2. Wood (or similar synthetic materials) in direct contact with soil placed on concrete base, treated or removed. G (2)(b)
- 3. All visible and accessible termite shelter tubes scraped off on wood and masonry. G (2)(c)
- 4. Foundation walls, piers, columns, support and pipes anchored and treated. G (2)(d) for post-construction treatment, or H (1) with permission of the DPR attached for pre-construction treatment.
- 5. Cavities in hollow masonry, tile, brick, block, chimneys, or other construction features likely to be penetrated by termites filled and treated. G (2)(e)
- 6. Soil beneath attached slabs (porches, patios, carports, garages, walkways, etc.) which are less than 18 inches below sill treated. G (2)(f)
- 7. Adequate ventilation provided. G (2)(g)
- 8. Crawl space soil removed to provide at least 8 inches clearance. G (2)(h)
- 9. Soil beneath penetrations (pipes, utilities, etc.) and expansion joints in concrete slab floor construction treated. Open bath traps made accessible and treated. G (2)(i) for post-construction treatments or H(2) with permission of the DPR attached for pre-construction treatment.

Reason for not performing standard termite treatment procedures (explain why standards checked above are being waived):

- Standard cannot be performed due to construction features as described below.
- Property owner does not want standard completed for reasons described below.
- Standard cannot be completed for other reasons described below.

Reason Standard(s) cannot be completed: \_\_\_\_\_

I understand that this structure will be treated according to the minimum Standards except for those items checked above. I am the property owner or their authorized agent. I authorize the above-named company to proceed with treatment on that basis.
